

Isotopes in Environmental and Health Studies, Volume 43 Issue 1 2007

Artikel:	Seite
Isotopic and other studies on the molecular origins of substrate regulation of some pyruvate decarboxylases: a reconsideration Author: Richard L. Schowen	1-16
The proton inventory technique in a dual mechanistic system: the spontaneous hydrolysis of ethyl formate Author: Julio F. Mata-Segreda	17-21
A simple non-invasive method to detect and monitor hypercapnia: the sodium [¹³ C]bicarbonate breath test Authors: Anil S. Modak; Jennie M. Reid; Lori A. Williams; Gerald R. Hobbs	22-29
Residence times and age distributions of spring waters at the Semmering catchment area, Eastern Austria, as inferred from tritium, CFCs and stable isotopes Authors: Liangfeng Han; Peter Hacker; Manfred Grning	31-50
Independence of alpine meadow plants from soil organic matter for nitrogen supply: evidence from stable nitrogen isotopes Authors: Xianfeng Yi; Yueqin Yang	51-56
Sulphur isotope compositions of components of coal and S-isotope fractionation during its combustion and flue gas desulphurization Authors: Maorzata Derda; Andrzej Grzegorz Chmielewski; Janusz Licki	57-63
Determination of the soil-to-grass transfer of ¹³⁷ Cs and its relation to several soil properties at various locations in Serbia Authors: Dragana Krsti; Nenad Stevanovi; Jelena Milivojevi; Dragoslav Nikezi	65-73
